

OUR PORTABLE ACCOMMODATION BLOCK

PAB 1

Portable Accommodation Block

PAB 1

Portable Accommodation Block

The Portable Accommodation Block (PAB) is designed to be installed on a Mother Vessel as a means to provide additional accommodation for staff/workers on offshore/construction projects. The PAB contains accommodation cabins (184 P), change room, mess room, galley, laundry room, recreation room and machinery room.

With modular construction, client can choose the number of levels required for varying number of pax. The split levels are held together on twist locks and locking pins for easy assembly. Piping and power run on the outside with easy connect and disconnect facility.
